### Douglas County

#### B.5 CSBG Eligible Entity Management Accomplishment

The onset of COVID provided the perfect opportunity to rely on the Community Data System that we have been building for the last 5 years. Within day we were able to track the increased demand for food and financial assistance requests through our community partners and compare to the demand over the previous 4 years. We tracked this data weekly and adjusted service delivery systems and provided additional resources to meet the demand. When our food banks saw an increase of the magnitude of 400% over last year our Board of County Commissioners contributed general funds dollars to increase the availability of food and meet the demand. Local CARES Act dollars were spent to meet the increase in financial assistance at a rate of more than 10 times the historic amount. The data we had been collecting for five years and the immediately after the shut down allowed local leadership to make data informed decisions and meet the need of residents impacted by the pandemic.

#### B.6 CSBG Innovative Solutions Highlight

During the shut down cause by the COVID 19 pandemic local emergency management found themselves responding to a new type of disaster, a human disaster. Most of our emergency systems are built to address fire, floods or natural disasters. With COVID 19, we were faced with responding to a human disaster as people found themselves out of work, quarantines or sick. In Douglas County we merged our Community of Care network with the Emergency Operations Center (EOC) to for the Human Needs Task Force. This Task Force worked alongside the EOC to address housing, food shelter and the needs of our aging and other vulnerable populations. We relied on the collaborative partnership built through projects funded by CSBG to leverage resources and create new an innovative ways to serve. This included delivery of food from food banks, getting iPads into the hands of senior's who were isolated, shifting to drive through models of food bank pick up or virtual case management meetings. A total of 17 non profit partners contributed to this work. CSBG funds were used to support the data system that tracked the effort of the Task Force and many of the service that were provided. This was fostered and supported by the collaborative and innovative blending of Emergency Management and Social Service organizations in Douglas County through the Human Needs Task Force.
