

# COMING SUMMER 2025 CASTLE ROCK VA CLINIC

## About the clinic:

VA Eastern Colorado Health Care System is excited to open a new outpatient clinic in Castle Rock in 2025. The clinic will be able to support roughly 8,000 Veterans in choosing VA providers for routine health and wellness check-ups. Our goal at VA is to provide Veterans with the soonest and best care, and we want to provide that care close to home. This clinic will allow Veterans to get their primary and mental health care in their own community.

## Why are we opening a clinic in Castle Rock?

Douglas County represents one of the communities with the fastest growing Veteran enrollment and demand for services within Eastern Colorado. In 2017, we served about 6,200 Veteran in Douglas County, and we estimate that by 2027 we will have 8,600 Veterans in this county. That growth is also coupled with a growing Veteran population in the Colorado Springs area. While many Veteran populations around the country have been declining, we are honored and proud to serve a growing community here in Douglas County.

## Services offered:

- Primary Care
- X-Ray
- Laboratory
- Mental Health

 **Castle Rock VA Clinic**
