Collection Pick Up Date: May 15th

First...

We collect "mobility devices" (md's), crutches, canes, walkers and wheelchairs wherever they are in surplus.

Every
pair
counts!

We receive them from individuals, collections at schools, churches, fire houses, nursing homes, manufacturers, etc.

MOBILITY HEALTH DIGNITY ACCESS

We toil together to enable those we may never see.
Hobbled in life by some illness, accident or act of violence.
Many are hopeless.
The generous donations given to Crutches 4 Africa are the tools we use to help raise the hindered, to lift them from the dust, and help them on their way.

Then we bundle...

...and distribute

Where do you fit in?

You can help collect **MOBILITY DEVICES**, as an individual, a club or a district.

Each mobility device we send is a "unit". A unit is a pair of crutches, a cane, a walker or a wheelchair.

(also need bike trailers, baby joggers, prosthetic limbs, & polio braces)

To ship a "unit" from the USA to Africa costs \$3.00 (USD)!

load...

You can help fund a container.

A forty foot container then will cost about \$10,000 USD

United States to Africa.

...ship

You can help us distribute*
in your home country or
come along on a
distribution trip.

"MOBILITY, the most basic human right..."

* Recipient countries are encouraged to cover the in country cost of distribution.
