

Signal and Intersection Reconstruction

Construction Impacts

Important Schedule Update - Early April:

Construction is now expected to be finished in early August - approximately 46 days ahead of schedule.

Construction to improve road quality and safety at the intersection began last year in August 2023. The original schedule was designed to reduce travel time delays by scheduling the heaviest impacts between 8:30 a.m. and 3:30 p.m. The original completion timeframe was fall 2024.

For the contractor to finish early, crews need more time on the road. On April 4, all directions of the intersection will be reduced to one through lane 24/7, although construction working hours will still be 7 a.m. to 7 p.m. As construction progresses, additional lanes will open. The time saved installing and removing traffic control daily and longer work hours results in the schedule gain.

What can you do?

We ask you to please plan ahead if you travel this intersection. Give yourself extra time to get to your destination. **Before you hit the road, check your mapping applications (Google, Waze, Apple Maps) for current travel times.**

Please Note:

- All directions of the intersection are reduced to one through lane 24/7.
- Working hours are 7 a.m. to 7 p.m., Monday through Friday.
- Occasional weekend work is possible but must be approved by Douglas County Public Works.
- There will be no work during the holidays.
- Stay in the know on construction impacts and sign up for project text alerts by texting 'QLUnews' to 21000.

Contractor	Project Cost	Project Timeline
Villalobos Concrete, Inc.	\$13 Million	Aug. 14, 2023 to Fall 2024

Project Summary

Douglas County is improving road quality and safety at University/Lincoln and Quebec in Highlands Ranch. A project to rebuild and reconfigure the full intersection is underway. Work includes a new traffic signal system, raised pedestrian safety islands, additional eastbound and westbound lanes on Lincoln Avenue and University Boulevard, and a new right-turn-only lane from southbound Quebec Street to westbound University Boulevard.

Construction on this \$13 million project is underway and is expected to be complete in August 2024.
