

“Open data is not only a tool to engage and empower communities, it can also help improve the delivery of services to our citizens, taxpayers, and customers.”

*Douglas County Commissioner
David Weaver*

Public input from the residential and business community regarding recommendations for additional data sets is welcome. To make a data set suggestion, please contact Douglas County at opendata@douglas.co.us

Check out all the great online applications at your fingertips:

DougCodata

Information when you want it,
the way you want it

DougCodata.org is our primary catalog of publicly available tabular data. Here you will find the data that underpins many of the data products we provide; as well as tools to chart, graph, visualize, and create data views that are specific to your needs.

“Douglas County represents a new era of transparency in local government.”

Pam Ridler,
President/CEO of Castle Rock
Chamber of Commerce

DougCoConnect

Business tools at your fingertips.

DougCoConnect is a parcel-centric data mapping and visualization tool that allows users to dive into County data to find trends and insights on the properties within Douglas County.

NearMeDC

Beat the cone zone on your way to work, play and live and stay in touch with your community.

NearMeDC is a notifications platform that allows you to easily find out and stay informed about what's going on nearby in your city and county. Currently, we feature community resources, road construction “Cone Zones” and recently issued building permits.
