

# Improvements at University/Lincoln & Quebec

## Signal and Intersection Reconstruction

### Upcoming Construction

#### Phase 5 - Work on Quebec Street.

\* Current through mid- to late-April.

#### Work Ahead:

- Traffic on northbound Quebec Street will shift to the east and traffic on southbound Quebec will remain shifted to the west for work in the middle lanes.
- Typically, two through lanes and one left lane turn will be maintained during working hours. During paving operations, expect only one through lane to remain open. When the dedicated right turn lane is closed, use the through lane to make a right turn.

#### What can you do?

We ask you to please plan ahead if you travel this intersection. **Before you hit the road, check your mapping applications (Google, Waze, Apple Maps) for current travel times.**

#### Please Note:

- Working hours are 7 a.m. to 7 p.m., Monday through Friday. Expect the heaviest construction delays between 8:30 a.m. and 3:30 p.m.
- Occasional weekend work is possible but must be approved by Douglas County Public Works.
- There will be no work during the holidays.
- Stay in the know on construction impacts and sign up for project text alerts by texting 'QLUnews' to 21000.

Contractor	Project Cost	Project Timeline
Villalobos Concrete, Inc.	\$13 Million	Aug. 14, 2023 to Fall 2024

# Project Summary

Douglas County is improving road quality and safety at University/Lincoln and Quebec in Highlands Ranch. A project to rebuild and reconfigure the full intersection is underway. Work includes a new traffic signal system, raised pedestrian safety islands, additional eastbound and westbound lanes on Lincoln Avenue and University Boulevard, and a new right-turn-only lane from southbound Quebec Street to westbound University Boulevard.

Construction on this \$13 million project is underway and is expected to be complete in fall 2024.
