

Douglas County Health Department and STRIDE Community Health Center

Family Planning and Sexual Health Services

Confidential reproductive and sexual health services including annual exams, birth control, cervical cancer screening, clinical breast exams, pregnancy testing, and STI, HIV, and Hep C Testing.

Immunizations

All commonly recognized child and adult vaccines and boosters, including flu and COVID-19 vaccines, are available to Douglas County Residents. Public and private insurance plans are accepted, and a sliding fee scale is available for individuals without insurance.

Healthy Aging and Fall Prevention

Person-centered, comprehensive care that supports your overall health and wellbeing. This includes primary medical care that addresses acute and chronic health conditions, medication management, and mentation and mobility assessments.
