

Website Notice of Prairie Dog Management

November 10, 2022

To be posted at the bottom of the county's prairie dog conservation webpage:

<https://www.douglas.co.us/open-space-natural-resources/projects/prairie-dog-conservation/>

Text of notice to be posted as follows:

Douglas County Division of Open Space and Natural Resources will be conducting prairie dog management activities on four properties beginning in November 2022. Douglas County must manage these populations to resolve conflicts with various Open Space management objectives on the various sites and to prevent encroachment onto the adjacent properties. These efforts are part of a larger management plan to maintain viable populations of prairie dogs in Douglas County while reducing conflicts with neighbors, agricultural operations, and other open space management objectives.

The properties receiving management action include:

- The subdivision parcel at 9604 Tammy Lane
- Hidden Mesa Open Space
- Spruce Meadows Open Space
- Sandstone Ranch Open Space

Thank you for your understanding and cooperation.

Andy Hough

Environmental Resources Coordinator

Douglas County Division of Open Space and Natural Resources
